ARTIFICIAL RIGHTS? LEGAL CHALLENGES IN THE ERA OF A.I.

The Program brings together Professors and Students from the Universities of Haifa, Leipzig, Padua, and Sapir College for a week of explorations and conversations on the most cutting edge topics of AI and digital technologies. The program will alternate lectures and workshops by professors and practitioners in law, computer science, and physics.

The Program will be held in person at the University of Padua.

Students wishing to participate should have at least a B2 level of English proficiency.
